

# Platinum's comprehensive cleaning, disinfecting, and environmental services for healthcare facilities.

To help your facility maintain a spotless, safe and healthy environment, Platinum Cleaning and Facility Services provides the highest standards of care for both patients and staff members with our environmental services, housekeeping, laundry (linens) and infection prevention.

We believe that cleanliness demonstrates a dedication to health, residential comfort and personal happiness. Assisted living facilities, nursing homes, hospitals and other medical facilities must excel at cleaning and disinfection services to enhance residents' and clinicians' experience and satisfaction. Most importantly, a clean facility also creates a feeling of comfort, which is just as important when it is someone's home.

It is also crucial to select an environmental services company that complies with regulatory requirements: that includes using chemicals that are Environmental Protection Agency (EPA) approved and implementing the Centers for Disease Control and Prevention (CDC) recommendations to prevent the spread of the novel coronavirus.

Platinum's cleaning programs can help an assisted living facility, nursing home or hospital maintain a clean, safe and healthy environment with our innovative procedures and technologies. The technologies include broad-spectrum disinfection for facilities after an infection outbreak and electrostatic spraying and fogging to efficiently disinfect all surfaces in an area. Platinum's cleaning and disinfection methods will improve a facility's cleanliness and appearance, and allow for more accountability, responsiveness and efficiency.

## HEALTHCARE FACILITY CLEANING PROCESS

Platinum has developed a patient-centered cleaning program that can help nursing homes, skilled nursing facilities, assisted living homes and hospitals standard of hygiene and cleanliness with the following:

**Superior disinfection** for a 360-degree Platinum clean. Our cleaning agents are EPA-approved and have been significantly tested to kill COVID-19 and other similar virus types.

**Cleaning and housekeeping.** Patient rooms, common areas and other high-use spaces require extra care to keep caregivers, clinicians and visitors safe and healthy.

**Increased performance metrics.** This is achieved by cleaning and disinfecting floors and high touch surfaces regularly to help prevent the tracking of pathogens and other dirt, germ and bacteria throughout spaces.

**Risk reduction.** Platinum is a Clorox® Total 360® partner and uses its revolutionary system to kill 99.9% of bacteria in five seconds for superior infection prevention.

# We keep you clean and compliant.

## Cleaning + Housekeeping

Patient rooms, common areas, and other high-use spaces need extra care to keep patients, caregivers, clinicians, and visitors safe and healthy.

## Touch Point Sanitizing

We'll pay special attention to high-frequency touch points, such as doors, light switches, elevator buttons, restroom fixtures, handrails, etc.

## Floor Sweeping + Vacuuming

Cleaning and disinfecting floors regularly helps prevent the tracking of pathogens and other dirt, germs, and bacteria throughout spaces.

## High-Visibility Signage

From social distancing floor decals to elevator, bathroom, and common area plaques, our signs inspire confidence and encourage compliance.

## CDC Compliance

Implementing CDC recommendations to prevent the spread of the novel coronavirus which causes COVID-19 keeps our Platinum family safe.

## Electrostatic Spray + Fogging

We use both fogging and electrostatic machines to efficiently catch and disinfect all surfaces in an area in 360 degrees.

## EPA-Approved Cleaners

Our chemicals are EPA-approved and have been significantly tested to kill this novel coronavirus and other similar type viruses.

## Broad-Spectrum Disinfection

For facilities with infection outbreaks, we use a broad-spectrum hospital grade disinfectant cleaner and proven virucide, fungicide, and bactericide.

## COVID-19 Infection Reset

Cleaning and disinfection of all hard surfaces, horizontal and vertical, following an infection, and rigorous ongoing maintenance.

## PPE Compliance

Safety for all is our top priority. We'll always wear masks and gloves working in your facility, and use more extensive PPE when necessary, per CDC recommendations.

## Trash/Recycling Removal

Frequent emptying of trash, recycling, and other waste bins helps prevent germ- and pathogen-laden waste products from contaminating clean areas.

## TRAINING

Platinum offers an in-house laundry and total housekeeping services provided by a well-trained staff that is overseen by on-site, regional and corporate management and refined through efficient methods and processes. Platinum can deliver an extensive training programs because it is critical to successfully managing the environmental services program.

## CONTACT PLATINUM TODAY
